Siddharth Singh

Frontend Developer | React.js & Next.js

Mumbai, India | imsidd02@gmail.com | linkedin.com/in/siddharth-s-singh | github.com/imsidd02 | imsiddharthsingh.vercel.app

SUMMARY

Frontend developer building production web applications with React.js and Next.js since 2022. Recent work includes an online quoting, booking and payments platform with a customer portal and staff admin, and a Next.js rebuild of a legacy PHP business directory. Comfortable owning features end to end, from responsive UI and forms to API integration, testing and debugging, and experienced in using AI coding assistants responsibly.

EXPERIENCE

Associate Software Engineer, Geecon Systems Pvt. Ltd., Mumbai — Apr 2025 – Present

- Build production web applications with Next.js, React and TypeScript, including booking journeys, customer portals and admin tooling.
- Built and maintained dynamic features using PHP, WordPress, AJAX and jQuery, improving admin dashboard usability.
- Migrated legacy modules to modern CMS workflows, reducing maintenance overhead.
- Contribute to sprint planning and peer reviews to keep code clean and maintainable.

Trainee Software Engineer, Geecon Systems Pvt. Ltd., Mumbai — May 2023 – Apr 2025

- Developed multiple client-facing websites with WordPress, HTML5 and CSS3.
- Added interactive features and responsive UI with jQuery and Bootstrap.
- Implemented authentication, content forms and plugin customisations.
- Worked closely with designers to convert Figma and PSD designs into pixel-accurate, responsive layouts.

Software Development Intern, Geecon Systems Pvt. Ltd., Mumbai — Dec 2022 – May 2023

- Learned and applied React.js, Next.js, Tailwind CSS and API integration on live projects; built responsive layouts and reusable UI components.
- Used Git in a collaborative, agile workflow and supported debugging and testing.

SELECTED PROJECTS

Van-Go Clearance · van-goclearance.co.uk — Aug 2026 – Present

Online quoting and booking platform for a UK waste-clearance business. Developer, built end to end.

- Multi-step booking journeys with postcode address lookup, date and time-slot selection and a persistent running total.
- Stripe-hosted checkout confirmed by webhook; transactional email through Resend that never blocks a booking.
- Customer portal (bookings, quotes, PDF invoices) and staff admin (availability calendar, coupons, spreadsheet price imports with one-click revert).

Next.js, React, TypeScript, Tailwind CSS, Prisma, PostgreSQL, Stripe, Resend, Vitest

My Business Directory Local – Next.js rebuild · in development — Oct 2026 – Present

Rebuilding a legacy PHP business directory on Next.js while sharing the live database, so both sites run side by side.

- 100+ routes: search, categories, locations, business profiles, member dashboard and public forms; old PHP URLs redirect to new routes.
- Least-privilege database users, legacy password compatibility, and server-side ownership checks on every dashboard query.

Next.js, React, TypeScript, Tailwind CSS, MySQL, AWS S3

PMS — Jun 2025 – Present

Next.js 15, TypeScript, Tailwind CSS, Zod, React Hook Form, TanStack Query, Prisma

B2B Growth Hub · b2bgrowthhub.org — Apr 2024 – Present

HTML, CSS, JavaScript, Bootstrap, PHP, SQL

Award Night Websites — Apr 2025 – Present

PHP, MySQL, AJAX, JavaScript, jQuery, HTML, CSS3, Bootstrap

SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, jQuery

Backend & data: SQL (MySQL, PostgreSQL), Prisma, PHP, WordPress, REST APIs

Integrations: Stripe, Resend, AWS S3

Tools: Git, GitHub, GitLab, Vercel, Postman, Vitest, Claude Code (AI-assisted development)

EDUCATION

B.Sc. Computer Science, Shankar Narayan College of Arts & Commerce, Mumbai — 2021
